Add a hut/parking lot as a starting/end point for a hike

This document will specify the steps needed to define a hut/parking lot as a starting/end point for a hike and what the results are supposed to look like.

1. Create an account for HikeTracker with a **local guide** role.

2. Open a terminal and perform the following commands:

```
cd ./client
npm install
npm start
```

Execution steps

1. Open the main page at link https://localhost:3000.

This page shows the list of all the available hikes with some general information. However, not all the information is shown since the user hasn't authenticated yet.

2. Click on the **sign in** label

3. Enter email and password and log in (make sure the email is verified)

Now that the user is logged in as a local guide, a new **toggle** has appeared on the right.

    4. Click on the newly appeared toggle

Explore Hike

Select a Country	Select a Region	Select a City			Select a difficulty
None ⌄	None ⌄	None ⌄ 🔍	switch to radius		Tourist Hiker Pro Hiker

Select lenght range
0km   5km   10km   15km   20km   25+km

Select ascent range
0m   200m   400m   600m   800m   1000+m

modify created hikes 🔵

Title: Col Clapier from Val Clarea   **Location:** Italy, Piedmont, Buttigliera Alta   Show more info 🗎

Description:
A beautiful path thruogh Clarea river

Difficulty: Tourist   **Length:** 16.2 km   **Ascent:** 1317 m   **Estimated Time:** 123 min

Title: Guglia Ross   **Location:** France, Auvergne-Rhône-Alpes, Grane   Show more info 🗎

Description:
Guglia Ross

Difficulty: Hiker   **Length:** 12.6 km   **Ascent:** 801 m   **Estimated Time:** 400 min

A new option for editing hikes will appear alongside each hike (**Note: a local guide can only edit hikes that they created, all the other hikes will be redered invisible upon clikcing on the toggle**)

5. Click on the red button corresponding to the hike you want to modify

A new page will open, containing information about the selected hike

    6. Next to either start or end point, click **link**

5 / 7

Link Start Point   ✕

Hut List:

| Select hut   ⌄ |

Parking Lot List:

| Parcheggio Buttigliera   ⌄ |

Select Park
Parcheggio Buttigliera

Close   Confirm

A box will appear, giving the option to choose either a hut or a parking lot to link to the hike (**Note: only parking lots/huts that are located in the same city as the hike can be chosen**)

7. Select a hut or a parking lot to link to the hike and click **confirm**

Title:	Col Clapier from Val Clarea		
Difficulty:	Tourist	Expected time:	123 minutes
Length:	16233,19 meters	Ascent:	1317,10 meters
Country:	Italy	Region: Italy	City: Italy
	latitude	longitude	altitude	Name	
Start point	45.150287	6.957245	1164	Parcheggio Buttigliera	Link
End point	45.150287	6.957245	1164		Link

Save Changes

The name of the newly linked hut/parking lot will be shown next to the corresponding spot.

8. Click on **Save changes** to return to the hike list.
